IQ DOORBELL QUICK INSTALL GUIDE

OVERVIEW

The IQ Doorbell is a great way to make the home's existing doorbell unit "smarter". The IQ Doorbell wires effortlessly into an existing door bell using the included pre-stripped leads, and can support up to two separate doorbells, like the front and back door. Because each doorbell learns in as two different zones, you can program custom chimes and rules for each.

WIRING DIAGRAM

SPECIFICATIONS

Sensor: 2.5"H x 1"W x .5"D

Wireless signal range: 600ft (200M), open air. Code outputs: tamper, tamper restore, alarm, alarm

restore, low battery.

Storage Temperature: -40-80C

Replace battery with exact replacement every 5 years with 3V Lithium (x2).

(2) -Panasonic CR2O32

-Energizer CR2O32

-Duracell DL2032

This is a quick guide for experienced installers only. For a detailed installation manual refer to the documentation found on the "Documentation" tab on http://dealers.qolsys.com (login required, request access at PortalAccess@Qolsys.com)

STEP 1

REMOVE BATTERY TABS STEP 2

WIRE THE IQ DOORBELL

The IQ Doorbell leads wire to the doorbell chime's TRANS, FRONT & REAR (optional) terminals inside the house. Simply wire them inline with the existing doorbell button wires.

STEP 3

PLACING THE UNIT IN/ON THE DOORBELL CHIME

Use the supplied double sided adhesive tape to mount the IQ Doorbell on the doorbell chime. Make sure to put it in an area that still allows for the decorative cover to be replaced.

STEP 4

LEARN INTO PANEL

Place your panel in "autolearn" mode

Open and close the case to "tamper" the device

ADD

Customize name and settings as desired and and touch "ADD"
